Maps: Geographic Concentration of Adherents of Ten Eastern and Oriental Orthodox Churches

The following ten maps show the counties (colored in red) with the greatest number of adherents for ten Eastern and Oriental Orthodox Churches. For each Orthodox Church, the red-colored counties – when added together - account for 50% (half) of all this Church's adherents. As an example, the map on the next page is the map for the American Carpatho-Russian Diocese (ACROD). In 2020, ACROD had parishes in 57 U.S. counties. If we would rank these 57 counties by the number of ACROD adherents, the top 9 counties (colored in red) accumulate 50% (half) of all ACROD members. The other 50% (half) ACROD adherents attend parishes situated in remaining 47 counties which are colored in blue color. The maps are available for:

- American Carpatho-Russian Diocese
- Antiochian Orthodox Christian Archdiocese
- Armenian Apostolic Church
- Coptic Orthodox Church
- Ethiopian Orthodox Church
- Greek Orthodox Archdiocese of America
- Orthodox Church in America
- Russian Orthodox Church Outside of Russia
- Serbian Orthodox Church in North America
- Ukrainian Orthodox Church of the USA
